VOL. IV TROPICO CALIFORNIA, WEDNESDAY, OCTOBER 7, 1914 No. 39

TROPICO'S BIG IMPROVEMENT CELEBRATION ON OCT. 31ST

PREPARATIONS FOR TROPICO'S BIG HALLOWE'EN CARNIVAL, WHEN THE COMPLETION OF $100,000 WORTH OF IMPROVEMENTS WILL BE CELEBRATED, WELL UNDER WAY

According to present indications, the elaborate carnival which will be held at Tropico on the afternoon and evening of October 1st will be one that will do the city proud. It will be held primarily for the purpose of celebrating the completion of over $100,000 worth of improvements within the city, these including a new city hall and fire engine house, the purchase of a $10,000 automobile fire-fighting apparatus, the improvement of Brand boulevard from the city's northern to its southern limits, and the ornamental electric lighting along the same, and the installation of fire hydrants throughout the city. Incidentally it might be mentioned that Hallowe'en occurs on that date, and after the formal festivities of the evening the affair will be turned over to the Hallowe'en crowd, which will make merry with noise of trumpet and laughter and song until the midnight hour.

The scene of the carnival will be the vacant space on Brand boulevard between Palmer avenue and Cypress street, and it may be said that at this early date steps are being taken to put that ten-acre piece in condition for the affair. It is expected that within a week or so that section will present a very diffeernt appearance from what it does at the present time, and that everything will be ready for the builders of the carnival.

Aside from the building of the booths, stands, etc., there will be no signs of the carnival until Friday afternoon, the day perceding the big event, when eight patrols of Boy Scouts, coming on foot from the various towns and cities in the surrounding country, will gather on the carnival square. These boys will make camp upon the grounds and will cook their own meals, make their own beds, etc., just to show the "grown-ups" what the younger generation is capable of doing when give na chance. These boys will be on the grounds all day Saturday to do police duty, and throughout the day will do many of their Boy Scout stunts, such as drilling, first aid to injured, wig-wagging, etc.

The real festivities of the carnival will begin at 1 o'clock Saturday afternoon, at which time the new city hall will be dedicated by the Grand Lodge members of the Masonic order. Following the dedication of the city hall a stunt which is extremely novel and entirely new in Southern California, and possibly this entire country, will take place. That will be an auto drill by a battalion of automobiles, all of a single make. This will take place on the carnival grounds.

A feature of the afternoon will be the Wild West exhibition to be given by Hosea Steelman and his company of motion-picture rough riders. There will be fancy rope spinning, Roman races, fancy riding, etc., all of which will be of a high order.

Then there will be a drill by the Tropico Volunteer Fire Department, using the new $10,000 fire engine and showing this company's particular style of fire-fighting. In this exhibition will be shown the primitive method of fighting fire which was used in this city before the acquisition of the new fire wagon. Surely the contrast will be amusing. During the afternoon there will be a burlesque ball game that will doubtless furnish amusement of a high order. A drill team from both the Knights of Pythias and the Elks lodges will give exhibition drills, the members being in uniform.

At 7 o'clock in the evening will take place the official turning on of the new ornamental illuminating system. The method of turning on these lights will be indeed novel and new, and will come as a complete surprise to the

LOCAL ARTIST WINS GRAND PRIZE CUP

WESTON ADDS ANOTHER IMPORTANT STAR IN HIS CROWN OF GLORIES

We remember once reading somewhere that "it matters not if the artist hides himself in the deepest woods, should his work be truly artistic and of real worth the world will make a beaten path to his door." In other words if the work of a man possesses real worth and quality he will be found out and afforded recognition.

We feel that this is truly the case with regard to our fellow townsman, Edward H. Weston. He has for the past year or so been slowly but surely building his little castle of reputation in the photographic world, until now, although he is "just one of our boys," his "reputation structure" has assumed remarkable proportions. He has already gained for himself a name that would turn the head of many of the most prominent artists in the west, or in the United States or even in the world. Notwithstanding the fact that he is hiding his light in our budding little city, he is gradually compelling the world to lock this way and to beat its way to his door. Through his work he is, while gaining renown for himself, presenting the name of our fair city before the world as no one else can. Few people, even in this valley, realize what an artist we have among us, and what remarkable pieces of artistic photography are being sent out from the little Bungalow Studio.

The latest feat of Mr. Weston is that of capturing a beautiful loving cup for the best four photographic prints at the convention of the Northwestern Photographers' Association, held at St. Paul, Minn., on September 30th. To appreciate this remarkable achievement one must understand that this competition was open to the entire world and hundreds of prints were entered, the entrants including the photographic masters of many countries. He simply captured the convention. Those attending were high in their praise of his pieces.

The prints which won the grand prize included a portrait of Miss Rae Davis of Glendale, which formerly had won first prize at a competition at Atlanta, Ga.; a portrait of Miss Mather of Los Angeles, which was an honorable mention print; "Abandon," which captured first prize at a prominent competition, and "Self Portrait," a photographic taken by Mr. Weston of himself, which also had previously won a first prize.

This prize winning business has become a habit with Mr. Weston, as it does with every one who is a true artist in his chosen proefssion.

AT THE TROPICO PRESBYTERIAN CHURCH

In all its services last Sunday the Tropico Presbyterian church observed rally day, and it proved to be a rally day indeed. This rally day was observed to mark the beginning of the winter's work after the vacation of several months during the summer season. Everyone seemed to enter into the spirit of the day, and judging from the enthusiasm shown one would predict extremely active operations in the Presbyterian church during the coming year.

The festivities last Sunday started with the Sunday school service at 9:45. At this time a program was given by the junior and primary departments of the school. After this program reports were given from all the departments of the school, along with plans that have already been laid for coming work. The program, which was a very pleasing children's affair, was arranged by Mrs. W. B. Wood and Miss Lois Duncan, who deserve especial credit for the excellent work done. A pleasing feature was the excellent orchestra that was present during the day, and which was under the personal

Continued on Page 3

Protest Against Verdugo Wash Assessment

There is indeed a burning question before the residents of this city today, and that is the question of whether or not the citizens of Tropico should put their hands into their pockets and hand over to the Board of Supervisors cold cash to help them pay for the improving of the Casa Verdugo wash, from which, by the way, the residents of Glendale will be the only ones to derive benefit. Could any question be more important to the residents of Tropico? When the proposition was up before the people of this place to purchase the system of the Tropico Water company for something like $70,000, there was a great deal of opposition, and possibly that opposition was well grounded. But it must be remembered that in case that water system was purchased the residents of this place would at least have had something for their money. They would have had something from which they would have rightfully been the only ones to reap the benefits. But it is different with this wash proposition. If Tropico donates this vast amount of money to the Verdugo wash repairers—and it must be remembered that this much money represents approximately one dollar per front foot of all the property in this city west of Glendale avenue—she will never receive ten dollars' worth of good in repayment.

There is a project on foot, has been in operation in fact since the floods of last winter, to protect the washes of Los Angeles County. The Board of Supervisors appointed a committee of engineers to plan ways and means. This committee has offered a report putting the cost of such work on the state and government tax. Why pay for something twice?

These are strong assertions, but we feel that they are absolutely true. Let us remember the storms of last winter, which came upon us in rapid succession. We were told at the time that they were the hardest storms that have visited this section for the twenty years last past. Suppose we try to find the damage done to Tropico by the flood waters of the Casa Verdugo wash which overwashed its banks during last year's storms. Of course, some portions of Brand boulevard were a little torn up on account of that being an unimproved thoroughfare, but the damage was slight. Let us suppose, again, that the boulevard had been improved in the manner that it will be improved before next season's rains come upon us—what damage would Tropico have suffered? Positively none, for the water would simply have run away without hurting us a bit. And at that it is probable that the Verdugo wash will not break down its banks for years to come.

There was one section of Tropico, however, that did suffer greatly from the storm waters of last season, and that was the eastern section, and practically all of this damage was done by water that came down from Sycamore canyon, through Glendale and on to Tropico, tearing things away as it came. We all remember how that torrent carried away part of East Cypress street, a large part of the front lot upon which stands the Frankland home on Boynton street, at the point where that street crosses the ravine, and did other damage. Compare the damage done on the east side with that done on Brand boulevard and Central avenue, which were visited by the waters from the Casa Verdugo wash, and the Brand boulevard and Central avenue damage is too small to be seen. It would seem, then, that if the people of this place have any spare change to hand out it would be well to help the people of our own town. At this time the officials of Glendale are improving Adams street, down which the winter storm waters of the Sycamore canyon run, but we want to take notice that that improvement work stops at the boundary line of Glendale. It must be remembered that the very improving of Adams street by Glendale will cause more storm water to run down into Tropico. Some encouragement to our eastern residents, surely.

In order that the residents of this city might get a square deal in this storm-water matter an organization was formed at a mass meeting which was held in the City Hall last Friday evening, this organization being known as the Tropico-Glendale Protectors' Association. This association was organized by men who have the interest of these cities at heart.

This meeting was called to order by Mr. A. E. Boyce, a trustee of this city and a booster, who nominated James Rich, another Tropico trustee, for the position of chairman, which nomination was seconded and Mr. Rich elected. F. H. Davis was elected secretary. The principal business transacted was the appointing of a finance committee consisting of E. D. Sevearnce, Will Richardson, Leigh Bancroft, A. J. Van Wie and W. G. Black, and the selection

TAX COLLECTOR WELCH SENDS OUT NOTICES

TAX TIME HAS COME AROUND AGAIN, SO LET US BE CHEERFUL AND CONTRIBUTE THE LITTLE DONATION — IT'S EASY—AFTER ALL IS OVER

Just as do summer, fall, spring and winter, tax paying time comes 'round every year. So regular is this necessary "evil" that we are sometimes taken unawares, but not withstanding this fact, we are compelled to "dig up." If we don't, there are big things doing.

Notice has just come to us from the County Tax Collector's office in Los Angeles, to the effect that the first installment of the annual taxes, which includes all taxes on personal property secured by real property and one-half of the taxes on real property becomes due and payable at the office of the tax collector, fifth floor of the Hall of Records, Los Angeles, on Monday, October 12th, 1914, and that this installment is delinquent if not paid at 6 o'colck p. m. on November 30th. The second installment, consisting of one-half of taxes on real property, becomes due and payable on Monday, January 4th, 1915. If this has not been paid on April 26, 1915, at 6 o'clock p. m., it will have become delinquent.

Should these taxes not be paid before or upon the times specified, we are informed that there will be penalties instituted. It is possible that some of us have, from past experiences, learned that what the various arms of this government have stated or threatened, are at the proper time put in force. Taxes may to some appear unnecessary, but we must all remember that if we are privileged to live in a civilized land with modern improvements all about us, we muts be willing to help pay for those improvements. At times our taxes may seem too large, and posisbly that is the case, but, after all, it is very probable that we are only paying for what we are getting. We are told that a 15 per cent penalty is added to the first installment if not paid on or before 6 o'clock p. m. on November 30th, 1914. We are further informed that a 5 per cent penalty is added to all unpaid taxes at 6 o'clock p. m. on April 26th, 1915. A further charge of 50 cents for every lot, piece or parcel of real property and every separate extension of personal property accrues if not paid on or before May 17th, 1915.

"Them is hash words," some one says, but notwithstanding they are only too true.

A portion of the "Notice to Taxpayers" reads as follows:

"Protection District Taxes Due"

"Protection district taxes for the year 1914 on all properties embraces within the boundaries of the San Antonio, Fair Oaks, San Fernando, San Gabriel and Rubio No. 2 Protection Districts, become due and payable on October 1, 1914, and all such Protection District taxes remaiinng unpaid at 5 o'clock p. m. on January 4, 1915, become delinquent, and 5 per cent penalty will be added thereto.

"A further charge of 50 cents will be added upon each parcel upon which such Protection District taxes remain unpaid on May 17, 1915.

"These taxes do not appear on and are not included in the regular state and county tax bils. Separate tax bills must be obtained therefor.

"The regular state and county tax bills will be saddled to the address given on the assessment rolls for all properties which have been listed for assessment with the County Assessor for the current year's taxes.

"Should taxpayers not receive bills on any or all properties upon which they desire to pay before October 20, 1914, such bills must be obtained at the County Tax Collector's office in the usual way, and the taxpayers should not further delay in obtaining them."

In order that the taxpayer may be sure that he is paying on only his own property and that his bills include all of his holdings, it is well for him to look them over carefully and

BOARD OF TRUSTEES MEET IN REGULAR WEEKLY SESSION

SEVERAL ORDINANCES PASSED. EAST CYPRESS AND BOYNTON AVE. TO BE IMPROVED. DEMANDS ARE ALLOWED

Meeting called to order by President Rich. All members present. After the reading of the minutes of previous meeting the regular order of business was taken up.

A demand from E. D. Yard for $800 was offered for a minute motion and was ordered paid from the fire protection fund.

The following demands were approved by the finance committee and ordered paid:

Chas H. Smith	$ 25.44
Keystone Iron Works	472.06
Pac. Tel. & Tel. Co	1.80
Clyde Sinclair	8.00
A. T. Davis	5.00
F. B. McKinney & Son	.85
Pac. Tel. & Tel. Co	.70

C. C. Rittenhouse presented a sketch for a jail cell to be placed in the new city hall.

An application for a permit to do street work by private contract in the Stepper tract was offered with a resolution, which upon motion was accepted and the permit granted.

Mr. McClain, representing the Pacific Light and Power Company, appeared in reference to the furnishing of power for the lights on Brand boulevard, and was informed that according to the accepted resolution, the city could not sign contracts for supplying power for more than two years. He was instructed to prepare a bid for burning the lights not later than 2 a. m. and at the lowest price.

A communication from the Pacific Electric Railway addressed to City Attorney was read, in which they state that it will be impossible for them to open such crossings as the city wishes, on the grounds that the fast service prevailing on the line would be interfered with and would make the chances of danger greater. The matter was taken up for further consideration.

The Southern Pacific Railway wrote that they would install at the Tropico crossing an automatic flag system, but at this time they could not accede to the demands of the city for the installation of a watchman and a gate. This matter was left for further consideration.

An order was read calling the attention of E. M. Lynch to the fact that he was still in possession of certain maps and records that were the property of the city of Tropico, and asked that he turn over the same at once to prevent further action. The resolution upon motion was adopted.

A petition signed by an aggregate of 45 per cent of frontage on East Cypress and Boynton streets, asking for street improvement, was read and upon motion was accepted and the city engineer instructed to prepare the necessary maps, etc.

Dr. Mabry stated that at a meeting of health officers held in Alhambra last week it was decided to issue pamphlets every month dwelling upon contagion and contagious diseases, and that same would be distributed among the school children and with library books. The board was asked to procure the books for Tropico at a slight cost each month. The matter was laid on the table.

He stated that there would be a meeting at Monterey this month of the State Board of Health, and asked what disposition the board would take in sending a representative. On account of short funds the matter was dismissed.

An ordinance regulating the excavation of streets in the city of Tropico by private parties was read and declared read for the third time, and approved.

An ordinance regulating the excavation of streets in the city of Tropico by firms or corporations was read and declared read for the third time, and approved.

RUM

By William C. Anderson

Of the women of California I ask these questions:

What are you going to do at the coming election with the unholy traffic in rum?

Are you goin to give an impetus to the flame-colored scourge, or are you going to be further deceived by the liquor forces, roused by their defeats in other states and their fear of defeat in this state?

Are you going to pass the liquor privilege on to posterity, with all its unholy dangers?

Here are some facts:

The liquor interests are making an incessant effort to debauch the suffrage vote of California and every other state.

It has exercised a corrupt influence in civic affairs.

It has utter disregard for the laws of the state.

It has ruthlessly treaded on the solemn compacts of all constitutions.

It is a vile, vicious business, without any excuse for being.

It is permeated with a sordid love of gain at any cost.

It has brought to womanhood more burning tears, burdens of want, heartaches and sadness than any other social evil.

It goes hand-clasped with every vicious practice.

Its heartless cruelties are visited upon the aged, and it pawns the pleasures of little children.

Here are other facts from a reliable source:

We of these United States of America consume more rum than England and all of her colonies combined.

We consume more rum than Russia, Germany, France, Belgium, Austria, Hungary or Italy.

We consume more rum than all of the following nations combined: Spain, Denmark, Norway, Sweden, Bulgaria, Roumania and Switzerland.

Our total consumption for 1912 was 2,128,452,226 gallons, and over six millions of gallons were imported from foreign countries to supply the demand.

New York City alone taxed rum drinkers in 1912 over twelve and one-half millions of dollars.

We are the greatest rum-consuming nation in the world, and this in the face of fourteen prohibition states.

It is a mistaken idea that the obliteration of the sordid rum traffic will destroy the grape industry of California. The grape industry is one per cent of all industry in the state. That is, for every ten dollars' worth of business done, ten cents of it is grape business. Of that ten cents the canning industry and the raisin industry is about six cents.

The liquor traffic of California is of more interest to the Eastern distillers and brewers than it is to the people of California. The amount of money sent East for rum is fifty times greater than what is sent here in exchange for grape products.

To hold up the grape industry as an argument to protect the liquor interest is false reasoning. We ship in bottles, jugs and kegs from the East, fill them with California-made wine and re-ship to the East. It would be more profitable to ship the raw material and save the freight on containers. Therefore, the grape industry would really profit.

And what is the grape-alcohol industry compared with the welfare of several millions of inhabitants of California? And isn't millions of dollars sent East a vast waste to the people of the state?

With the heavy influence from the East working for the liquor interests, it will take every suffrage vote in the state to defeat the saloon, uplift social conditions and make the people of the state fifty millions of dollars richer plus the grape industry.

SOUTHERN PACIFIC CANNOT AFFORD A WATCHMAN

Without any exaggeration there are more automobiles cross the railroad tracks at the Tropico avenue crossing than at any other crossing in Los Angeles county, barring the busy crossings in the business sections of Los Angeles. Yet, when the trustees of Tropico asked the officials, through the city attorney, to provide a system of safety, preferably a watchman and gates, the officials stated that it would be impossible for the railroad company to install such a system when they considered the cost of maintenance. That they would, however, install a wig-wag at that crossing, and felt that it would serve the purpose. They were emphatic in stating that the present system was all that was needed, but to please would install the other.

True, there has been very few accidents at this crossing, considering the amount of traffic, but what has happened and what is liable to happen are two different things.

The last catastrophe called for action. Whether Mr. Ragland and Mr. Bowls were to blame or not, this would have been averted had there been a watchman and safety gates at Tropico crossing, and it is under the present system, liable to happen again.

The railroad officials say they cannot afford the expense. They state that such a system would mean the expenditure of thousands of dollars. Is one life worth thousands of dollars? The worth of a human life cannot be reckoned by dollars. When any member of the family is sick do we reckon the cost of cure? No. If we did the law would deal with the case. Can a corporation reckon the cost of safety without interference? May be they can. But there certainly must be laws that will govern such costs and the railroads should be compelled to spend money for safety just as we are compelled to spend money for safety.

Thereare cases where accidents cannot be averted, but where there is a possibility for safety devises they should be installed.

On the other hand auto drivers are sometimes reckless and take chances which result disastrously. But we have laws covering such offenses and they are dwelt with accordingly. Why not the railroads?

ORDINANCE No. 93

An Ordinance Regulating the Use of Public Streets, Avenues, Boulevards, Alleys and Other Public Places in the City of Tropico, and Providing a Penalty for the Violation Thereof.

The Board of Trustees of the City of Tropico do ordain as follows:

Section 1. It shall be unlawful for any person, firm or corporation to drive, propel or transport, or cause to be driven, propelled or transported, any vehicle or conveyance which, together with the load or contents thereof shall exceed four (4) tons in weight, over, upon or along any public street, avenue, boulevard, alley or other public place in the City of Tropico.

Section 2. Any person, firm or corporation violating any provision of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not less than Three $3.00) Dollars nor more than One Hundred ($100) Dollars, or by imprisonment in the County Jail of the County of Los Angeles for a period of not more than three (3) months, or by both such fine and imprisonment.

Section 3. This Ordinance is immediately required for the preservation of the public health and safety, and the following is a specific statement showing the urgency of this Ordinance:

The said City of Tropico has no Ordinance regulating the use of its streets, alleys, avenues, boulevards and other public places, and such an Ordinance is now immediately required.

Section 4. The City Clerk shall certify to the passage of this Ordinance and shall cause said Ordinance to be published once in the Tropico Interurban Sentinel, a weekly newspaper of general circulation published and circulated in the said City of Tropico, and thereupon and thereafter it shall be in full force and effect.

Adopted and approved this 1st day of October, 1914.

JAMES RICH,
President Board of Trustees
(SEAL) of the City of Tropico.

Attest: NELSON C. BURCH,
City Clerk of the City of Tropico.

State of California, City of Tropico—ss.

I, Nelson C. Burch, City Clerk of the City of Tropico, do hereby certify that the foregoing Ordinance was passed and adopted by the Board of Trustees of the City of Tropico and approved by the President of said Board at a regular meeting thereof held on the 1st day of October, 1914, and that the same was passed by the following vote:

Ayes—Trustees Boyce, Conrad, Henry, Rich, and Webster.

Noes—None.

Absent—None.

In witness whereof I have hereunto set my hand and affixed the official seal of the City of Tropico this 1st day of October, 1914.

NELSON C. BURCH,
City Clerk of the City
(SEAL) of Tropico.

THE TRUSTEES MEETING

Continued from Page 1

An ordinance regulating the construction of manholes was declared read for the third time, and approved.

An ordinance regulating the size of loads on streets was declared read for the third time, and approved.

Upon motion the board appointed N. C. Burch as deputy street superintendent and fixed the salary at $10 per month. This was a temporary appointment during the work on Brand boulevard.

The matter of fixing up the streets used by the street contractors was referred to the public works committee.

Several demands were offered and referred to the finance committee.

Protest Against Verdugo Wash Assessment

Continued from Page 1

of a Board of Managers consisting of A. E. Boyce, J. B. Tredwell, Hal Davenport, Ed Ayers and W. J. Hibbert.

This organization has had petitions printed protesting against the including of Tropico in this storm water district. A careful house to house canvas is being made in order that all of the people living in the section of Tropico that it is proposed to include in this district may have a chance to protest. This section includes all of that part of Tropico west of Glendale avenue. The petitions that are being circulated read as follows:

To the Board of Supervisors of Los Angeles County:

"The undersigned the owner of the property hereinafter described, does hereby object to the formation of the proposed storm water district to be known as the Verdugo Storm Water District, upon the ground that the said proptrey is not within any danger whatever of damage from storm water, or from the waters of any innavigable stream, water course, canyon, or wash, and that, it is not necessary that any improvements be constructed to protect the said land from any such damage and upon the further ground that spreading, conserving, storing or retaining or causing to percolate into the ground, any or all waters within said district will be of no benefit whatever to the said property.

The undersigned separately objects to the extent of such proposed district to the extent that such proposed district includes the property hereinafter described, such objection is made upon each and all of the grounds hereinbefore stated in objection to the formation of such district."

There is another thing that the people of Tropico must think about with regard to this protest and that is that all of the printing that is being done and the work of securing these names costs money. This work does not do itself, and for this reason local people should be willing to give something toward the carrying on of the work. When the collector calls just hand him twenty-five or fifty cents to help defray this expense. This small amount would not hurt anyone and is extremely small when compared with what we will have to pay should the protest be thrown out on account of lack of names.

The next important thing to signing one of these petitions and paying just a little toward helping to pay the expenses incurred by this step is to attend the mass meetings that are announced from time to time for the purpose of considering this question. At the opening meeting, when this organization was formed, there were fifty people present, think of it, when there should have been three hundred and even m[illegible] of these same people, through lack of int[illegible] were included in this storm water district and saddled with this expense, they would probably send a great howl to the city trustees for letting them get into such a condition. So let everybody attend the next meeting that is called. If the city hall can't hold the crowd the meeting will be held in the street.

Unmuzzled Dogs Running at Large Must Be Killed

It is deemed necessary on account of the prevalence of hydrophobia or rabies and for sanitary purposes that the provisions of Section 7, of Ordinance 24, of the City of Tropico, be at this time enforced.

It is therefore the Order of the Board of Trustees of the City of Tropico that all dogs within the limits of said City be and are hereby prohibited from running at large on any Street, Boulevard, Alley, Park or other public place in said City, unless such dogs are securely muzzled, or led by a chain or line "so as to effectually prevent them from bitting any person or animal."

IT SHALL BE THE DUTY of the City Marshall, after twenty-four hours from the printing and posting of this order in the same manner that ordinances are printed and posted, to kill all dogs unmuzzled or running at large contrary to the provisions of this order.

James Rich
President of the Board of Trustees of the City of Tropico

Mrs. C. H. Kuster, of Los Angeles, entertained in honor of Mrs. S. A. Pollock and her mother, Mrs. E. Kasseall.

Mr. and Mrs. Wayland Chapman entertained Mr. and Mrs. Frank Newell as dinner guests Friday evening.

Mr. and Mrs. W. E. Brown left Wednesday morning for Witchita, where they will visit his parents.

Mr. and Mrs. Joe Ashton were the dinner guests of Mr. and Mrs. W. A. Chapman, Thursday evening, Oct. 1st.

Mrs, F. T. Empkhe and her son and daughter have moved to San Diego. Howard Empkhe, who is now with the L. A. team in Portland, will join them there later.

Hal H. Davenport is burning the roads now in his new Ford which he has had cut down to the raceabout type.

Mrs. Charles Millard Turck, will entertain the Tropico Auction Bridge Club at luncheon at her home on Glendale avenue next Tuesday.

Mrs. S. A. Ayers and her sister-in-law Mrs. N. C. Burch, and little Gertrude Burch have arrived home after a three month's tour through Colorado, Kansas, Nebraska, Iowa and Missouri, where they visited friends and relatives.

Mr. and Mrs. Morse and infant daughter, of Gardena ave, left Saturday for their abode. Mrs. Morse's sister, Miss Costly, who has been living with them has gone to Monrovia where she will enter the hospital and take a course in nursing.

Th initial luncheon of the year of the Tropico P. E. O. Society will be held Friday afternoon at the home of Mrs. John Hobbs on Central avenue instead of at the home of Mrs. Charles A. Barker, as was previously intended. This will be the first meeting of this society this year and should be well attended.

The contractor who has charge of the improvement of Brand boulevard is experiencing some trouble in having sections of the newly-laid sidewalk crack. Of course, these sections are being relaid under the supervision of Mr. Bullis.

Some dirty, law down son-of-a-gun stole the large curtain that hung from the awning in front of Robinson Bros.' grocery last Sunday night. This curtain could not have been of value to any one but the store, and the miscreants who took it should be apprehended and dealt with accordingly.

Mrs. Gertrud Burch, grand-daughter of Mr. and Mrs. N. C. Burch, has returned to Tropico after spending the summer months in Denver. This popular young lady will be tendered a reception of welcome next Friday evening by Miss Ester Jones, her Sunday School teacher. The affair is to be held in the class room in the church.

Warren McCollugh, who was formerly in the real estate business in this city and who has gained some reknown as a writer, is putting up a pretty little bungalow home on Boynton street for a relative who will, when it is completd, occupy it. This little home is on a high lot and commands a view of almost this entire section of the San Fernando valley.

The Lyric Section of the Thursday Afternoon Club, met Oct 1st, at the home of Mrs. Eustace Benton Moore, 207 Bianch ave. This meeting was postponed from Wednesday on account of a previous engagement of the leader and musical director, Miss Helen Beatrice Cooper, of the Cooper School of Music.

Rev. and Mrs. Henry Goodsell of Palmer avenue, and Rev. and Mrs. Carnes of the Methodist church of this city, are attending the annual conference of the Southern California Methodist association, which is now being held in Pasadena. It is understood that Rev. Carnes has resigned from the pastorate of the local Methodist church, but in the event of his resignation being accepted he will remain in Tropico until after the general election in November.

Prominent among the social events of the past week was the entertainment of the Thursday Afternoon Thimble Club at the home of the president, Mrs. Thomas Meagher, on Tenth street. The hostess was assisted in serving an elaborate collation by Mrs. Kenton Robertshaw and Mrs. Harry Flower. All the Club members were present and proclaimed Mrs. Meagher an exceptional hostess. Mid the fragrance of beautiful roses the ladies plied the needle and many were the pretty pieces of fancywork displayed.

Mrs. C. F. Benner and daughter, Violet Mae, have been guests for several days in Los Angeles of Miss Clara Della Weaver at the Weaver Oratorical school.

We are informed this week by the committee which has the coming carnival in charge that subscriptions toward the carnival fund are now due and may be paid to the collectors who have been making a house-to-house canvass. It is very urgent that all those who have made subcsriptions pay the same at the earliest possible date, so that the committee may have funds with which to work.

For the benefit of those who have not already been seen, it may be stated that anyone wishing to make a subscription of any kind toward this fund may do so by seeing Mr. Van Wie at the office of the Tropico Sentinel. This carnival will do a great deal to advertise Tropico, and all those who have the interests of this city at heart and are able to swell this fund a little should certainly do so.

R. L. Boone, Well known around Tropico and Glendale, has purchased the expressing business formerly owned by Sam Rhodes, and calls the attention of everyone needing his services that he will promptly and satisfactorily attend to their wants. The Tropico Express can be reached by telephoning 806-W or calling at C. S. Hunter's plumbing store.—Advt. Pd.

PARENT TEACHERS' ASSOCIATION

Mrs. Escella Lindsey, formerly of the Los Angeles Record, gave a most interesting talk at the first meeting of the Tropico Branch of the Parent Teachers' Association last Wednesday, her subject being the amendment which the voters will have put before them in November. Mrs. Helen De Gaston presided at the business session which was held from 3:15 p. m. to 4:00 p. m. A large number of the parents were present and the school officials are indeed delighted to think that there are so many interested mothers in Tropico, who have the school's welfare at heart.

AN EXCELLENT SPECIAL EDITION

We are in receipt of a copy of the special edition just issued by the Glendale Evening News, and say that it is one of the finest numbers of its kind that it has ever been our privilege to see. From literary and mechanical standpoints it is an excellent piece of work, and if properly distributed through the Eastern states it will doubtless do much toward boosting not only Glendale, but Tropico as well.

THURSDAY AFTERNOON CLUB

The meeting of the Thursday Afternoon Club which was held last week at the home of Mrs. Leigh Bancroft, at 119 South Brand boulevard, proved to in every way enjoyable. The principal address of the occasion was given by Mrs. Randall Hutchinson, chairman of the art section of the Friday Morning Club of Los Angeles, who spoke on "Some of the beauties of the Pan-American Exposition." Her address was instructive and entertaining in the extreme and was greatly enjoyed by all present. During the short business session reports of the work accomplished during the summer were given, these including the Ways and Means, the Philanthropic and the Civic sections. At this meeting the Club house plans were exhibited and it was stated that just as soon as a loan could be negociated work on the new structure would be commenced. Toward the close of the meeting dainty refreshments were served, durwhich time the ladies eijoyed a program of selections on the Victrola, arranged and given by the Southern California Music company of Los Angeles. The hostesses of the afternoon were Mrs. Leigh Bancroft, Mrs. A. L. Bancroft, Mrs. H. H. Davenport, Mrs. Harry E. Bowman and Mrs. W. C. Mabry.

Elaborate plans are being made for the meeting of the Thursday Afternoon Club which will be held in the Knights of Pythias hall on San Fernando road, Thursday, October 15th. This meeting will be under the direction of the Legislative Department of the Club, and this department's chairman, Dr. Jessie A. Russell, will be in charge of the program. There will be several prominent speakers present, among whom will be Mrs. James Scherfee, president of the Outlook Club, who will talk on "The Torrens Land Law amendment." Mrs. Seward Simons, vice-president of the Woman's Legislative Federation of Women's clubs, who will also talk on some of the amendments. Ths will be an open meeting and a cordial invitation is being extended to the general public to attend. The hostesses for this event will be Mrs. Charles Finley, Mrs. R. L. Fryer, Mrs. W. Brown, Mrs. E. V. Lawton, Mrs. A. J. Becker and Mrs. W. L. Anderson.

Th Club is now busy arranging for the conessions which it will handle at the carnival to be held in this city October 31st.

to be sure. The clerks in the County Assessor's office make mistakes now and then, and it is up to the taxpayer to see that everything is all right and to make sure that the property upon which he desires to pay taxes is listed and correctly described.

There are several ways by which remittances for taxes may be made. These are by bank draft, post office or express money order or by certified check. And it should be remembered that all remittances paid in this county must be made out to W. O. Welch, tax collector of Los Angeles county.

PRESBYTERIAN CHURCH

Continued from Page 1

direction of Miss Katherine Hobbs. Miss Tersa Snell was chairman of the committee which decorated the auditorium for the day.

One unusual feature about the preparations for this rally day was the spetributed toward the latter part of the tributed towar dthe latter part of the week, William Klees' class of boys acting as messengers.

The Ladies' Aid society of this church held an all-day meeting in the church parlors on Thursday of this week. Plans were discussed at this meeting for a Christmas bazar, which the ladies expect to give during the latter part of November.

PRESBYTERIAN CHURCH

The subject of the sermon by Rev. C. Blanchard Hatch at the Presbyterian church next Sunday morning will be,

"Eyes—Good and Otherwise." The evening subject will be announced at the morning service.

The Ladies' Aid Society of this church will meet at the church parlor Thusrday next. Early in the forenoon and continue all day. Light basket lunch.

MRS. MABRY ENTERTAINS

The Tropico Luncheon Bridge Club was again delightfully entertained by Mrs. Mabry, of 115 East Acacia st., Tuesday afternoon. A profusion of beautiful coral dahlias filled the dining room, where a delicious course luncheon was served at one o'clock. The other parts of the house were showered with the same lovely flowers which were indeed rare beauties of their kind.

The afternoon of bridge which followed was all too short. Mrs. C. M. Turch was the skilful and lucky winner of a handsome prize. Those who enjoyed Mrs. Mabray's hospitality were: Mesdames Wm. Harvey, Jr., A. L. Lewis, Charles Barker, C. M. Turch, A. L. Bancroft, Leigh Bancroft, and Mrs. F. M. Street who substituted for Mrs. L. M. L. Richards.

A. J. Frankland is putting in a wide cement gutter and drop-off before his home on Boynton street to accomidate the storm water that will doubtless come down past his home. It will be remembered that a large portion of the street and also of Mr. Frankland's lawn was washed away last winter as was other property in that section.

ORDINANCE No. 90

An Ordinance of the City of Tropico Amending Ordinance No. 9, entitled: "An Ordinance Regulating the Excavations in Public Streets in he City of Tropico and Prohibiting the Digging up of Such Streets Without a Franchise or Permit, and Fixing a Penalty for the Violation Thereof," adopted April 27, 1911, by Amending Section 2 Thereof.

The Board of Trustees of the City of Tropico do ordain as follows:

Section 1. That Section 2 of Ordinance No. 9 of the City of Tropico, entitled: "An Ordinance regulating excavations in public streets in the City of Tropico, and prohibiting the digging up of such streets without a franchise or permit, and fixing a penalty for the violation thereof," adopted April 27, 1911, be, and the same is hereby amended to read as follows:

Section 2. The Street Superintendent, before issuing any permit for an excavation in any public street, alley or public place in the City of Tropico, shall require a deposit of a sum of money in proportion to the extent of such excavation as a guarantee for the restoration of said street, alley or public place to as good and perfect a condition as it existed before the excavation. Such deposit shall be a sum equal to One ($1) Dollar for each square foot of surface of such excavation to be made in streets or other public places which have been improved with macadam or cement, or oiled, and a sum equal to twenty (20) cents for each square foot of surface of each such excavations to be made in streets or other public places which are neither macadamized nor of concrete; provided, that no deposit shall be less than One ($1.00) Dollar on any permit, and the Street Superintendent shall charge a fee of Fifty (50) cents for the issuing of each such permits.

Such permit shall state the amount of such deposit and shall be a receipt therefor.

It shall also specify the person, firm or corporation to whom the same is issued, the street, alley or other public place, and the particular part thereof to be excavated, and the extent of such excavation.

Section 2. The City Clerk shall certify to the passage of this Ordinance by a vote of four-fifths of all the members of the Board of Trustees of the City of Tropico, and its approval by the President of said Board at a regular meeting thereof, and shall cause said Ordinance to be published once in the Tropico Interurban Sentinel, a weekly newspaper of general circulation in the said City of Tropico, and thereupon and thereafter it shall take effect and be in force.

Adopted and approved this 1st day of October, 1914.

JAMES RICH,
President Board of Trustees
(SEAL) of the City of Tropico.
Attest: NELSON C. BURCH,
City Clerk of the City of Tropico.

State of California, City of Tropico—ss.

I, Nelson C. Burch, City Clerk of the City of Tropico, do hereby certify that the whole number of members of the Board of Trustees is five, and that the foregoing Ordinance was passed and adopted by a vote of four fifths of all its members and approved by the all its members and approved by the President of said Board at a regular meeting thereof held on the 1st day of October, 1914, and that the same was passed by the following vote:

Ayes—Trustees Boyce, Conrad, Henry, Rich, and Webster.

Noes—None.

Absent—None.

In witness whereof I have hereunto set my hand and affixed the official seal of the City of Tropico this 1st day of October, 1914.

NELSON C. BURCH,
City Clerk of the City
(SEAL) of Tropico.

ORDINANCE No. 91

An Ordinance of the City of Tropico Regulating the Excavations in Public Streets, Alleys or Other Public Places in the City of Tropico by Public Utility or Other Person, Firm or Corporation, and Providing a Penalty for the Violation Thereof.

The Board of Trustees of the City of Tropico do ordain as follows:

Section 1. It shall be unlawful for any person, firm or corporation exercising any franchise, privilege or right given either by municipal authority or authority of the State Constitution of California, or by the authority of the Legislature of the State of California, or any or all of said authorities, to lay, repair or alter pipes or conduits in or under any street, alley or other public place in the City of Tropico for the transmission of gas, water, heat, electricity, steam or other substance, or to excavate in or upon any street, alley or other public place in said city for any or all of said purposes without first giving to the Street Superintendent of the City of Tropico written notice of intention so to do, naming the time of the execution of such work, the streets or portion of streets, alleys or other public places upon, along or under which said work is to be done, and the extent in square feet of such excavation.

Section 2. It shall be unlawful for any person, firm or corporation mentioned in Section 1 of this Ordinance to excavate, dig or disturb any street, alley or other public place or portion thereof in the City of Tropico without first depositing with the Street Superintendent of said City of Tropico a sum of money in proportion to the extent of such excavation as a guarantee for the restoration of said street, alley or public place or any portion thereof to as good and perfect a condition as it existed before the excavation. Such deposit shall be a sum equal to $1.00 for each square foot of surface of such excavation to be made in streets, alleys or other public places which have been improved with macadam or concrete, and a sum equal to 20 cents for each square foot of surface of each such excavation to be made in streets, alleys or other public places or portions thereof which are neither macadamized nor of concrete.

Section 3. The work for which such excavation is made shall be prosecuted with due diligence and so as not to obstruct the street and travel thereon more than is actually required to perform the work; and in case the work is not prosecuted with due diligence or is prosecuted so as to obstruct the street or the travel thereon unnecessarily, or in case that after the completion of the work, it is not satisfactory to the Street Superintendent, said Street Superintendent shall notify the person, firm or corporation responsible for said work that the street has not been restored to as good and perfect condition as it existed before said excavation, and to perfect the same within three days.

Section 4. If such notice is not complied with the Street Superintendent shall do such work as may be necessary to refill such excavation and to restore the street, alley or other public place or part thereof excavated, to as good a condition as the same was in before such excavation was made, and shall pay the cost thereof from the deposit made on account of that particular work, and at he expiration of six (6) months after said restoration is so made and so paid for, the Street Superintendent shall return the balance of said deposit to the depositor.

Section 5. The person, firm or corporation by whom or on behalf of whom any excavation shall be made in any public street, alley or other public place, shall be deemed and held to guarantee the work of refilling and repair thereof for the period of six months after the refilling of such excavation against all defects in workmanship or material. Whenever, within such period of six months, any part of the surface or work on any public street or place so guaranteed becomes in need of repairs, by reason of any defect in workmanship or materials used in such work, or refilling or repair, the Street Superintendent shall serve on the person, firm or corporation by whom the excavation was made, or who was responsible for the excavation, a written notice stating the repairs necessary and requiring such repairs to be made within five days after the service of such notice.

The City shall thereupon proceed to do said work after said five days' notice, in the event the same is not done to the satisfaction of the Street Superintendent, in compliance with terms of said notice, and the Street Superintendent shall deduct the cost of any work done or repairs made by him as provided for in this Ordinance, from any and all deposits then on hand, belonging to, or that may thereafter be made by any person, firm or corporation required by this Ordinance to do any work or to make any repairs under the provision of this Ordinance and who shall have failed, refused or neglected to perform such work or to make such repairs.

Section 6. Any person, firm or corporation violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not less than $10.00 nor more than $200, or shall be imprisoned in the County Jail of the County of Los Angeles for a period not exceeding 60 days, or shall suffer both such fine and imprisonment.

Section 7. This Ordinance is urgently required for the immediate preservation of the public streets, alleys and other public places and of the public safety of the City of Tropico. The following is a specific statement showing the urgency of this Ordinance:

That said City of Tropico has no Ordinance regulating the excavation of streets, alleys or other public places in the City of Tropico by any person, firm or corporation exercising any franchise right or privilege granted to it either by municipal authority, or authority of the Constitution of the State of California, or by the authority of the Legislature of the State of California, or any or all of said authorities, to lay, repair or alter pipes or conduits in or under any street, alley or other public place in the City of Tropico for the transmission of gas, water, heat, electricity, steam or other substance, and such an Ordinance is now immediately required.

Section 8. The City Clerk shall certify to the passage of this Ordinance by a vote of four-fifths of all the members of the Board of Trustees of said City of Tropico and its approval by the President of the said Board at a regular meeting thereof, and shall cause said Ordinance to be published once in the Tropico Interurban Sentinel, a weekly newspaper of general circulation published and circulated in said City of Tropico, and thereupon and thereafter it shall take effect and be in force.

Adopted and approved this 1st day of October, 1914.

JAMES RICH,
President Board of Trustees
(SEAL) of the City of Tropico.
Attest: NELSON C. BURCH,
City Clerk of the City of Tropico.

State of California, City of Tropico—ss.

I, Nelson C. Burch, City Clerk of the City of Tropico, do hereby certify that the whole number of members of the Board of Trustees is five, and that the foregoing Ordinance was passed and adopted by a vote of four-fifths of all its members and approved by the President of said Board at a regular meeting thereof held on the 1st day of October, 1914, and that the same was passed by the following vote:

Ayes—Trustees Boyce, Conrad, Henry, Rich, and Webster.

Noes—None.

Absent—None.

In witness whereof I have hereunto set my hand and affixed the official seal of the City of Tropico this 1st day of October, 1914.

NELSON C. BURCH,
City Clerk of the City
(SEAL) of Tropico.

ORDINANCE No. 92

An Ordinance of the Board of Trustees of the City of Tropico Regulating the Construction of Manholes, Culverts and Conduits in the Public Streets, Alleys and Other Public Places in the City of Tropico, and Providing a Penalty for the Violation Thereof.

The Board of Trustees of the City of Tropico do ordain as follows:

Section 1. It shall be unlawful for any person, firm or corporation in the City of Tropico to construct, lay or maintain any manhole, culvert or conduit in any public street, alley or other public place in said city unless the cover thereof and sides thereof for a depth of not less than eight inches (8") shall be of iron. Every such manhole, culvert or conduit opening into or upon any street, alley or other public place shall be provided with an iron cover, and shall be constructed and maintained so as to be flush with the surface of the street, alley or other public place in which the same is or shall be constructed or maintained.

Section 2. Any person, firm or corporation violating any provision of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not less than Three ($3.00) Dollars nor more than One Hundred ($100) Dollars, or by imprisonment in the County Jail of the County of Los Angeles for a period of not more than three (3) months, or by both such fine and imprisonment.

Section 3. This Ordinance is immediately required for the preservation of the public health and safety, and the following is a specific staement showing the urgency of this Ordinance:

The said City of Tropico has no Ordinance regulating the construction and maintenance or manholes, culverts and conduits in public streets, alleys and other public places in the City of Tropico, and such an Ordinance is now immediately required.

Section 4. The City Clerk shall certify to the passage of this Ordinance and shall cause said Ordinance to be published once in the Tropico Interurban Sentinel, a weekly newspaper of general circulation published and circulated in the said City of Tropico, and thereupon and thereafter it shall be in full force and effect.

Adopted and approved this 1st day of October, 1914.

JAMES RICH,
President Board of Trustees
(SEAL) of the City of Tropico.
Attest: NELSON C. BURCH,
City Clerk of the City of Tropico.

State of California, City of Tropico—ss.

I, Nelson C. Burch, City Clerk of the City of Tropico, do hereby certify that the foregoing Ordinance was passed and adopted by the Board of Trustees of the City of Tropico and approved by the President of said Board at a regular meeting thereof held on the 1st day of October, 1914, and that the same was passed by the following vote:

Ayes—Trustees Boyce, Conrad, Henry, Rich and Webster.

Noes—None.

Absent—None.

In witness whereof I have hereunto set my hand and affixed the official seal of the City of Tropico this 1st day of October, 1914.

NELSON C. BURCH,
City Clerk of the City
(SEAL) of Tropico.

TROPICO'S IMPROVEMENT CELEBRATION

Continued from Page 1

spectators. Upon the large stage there will be a spectacular tableau and chorus, followed by speeches by prominent out-of-town men and citizens of Tropico. Following the turning on of the lights Tropico will be turned over to the visitors for the balance of the night, and during these hours there will be confetti battles, street dancing, fireworks and noise galore. There will be no limit to the noise and hilarity. The ones bringing the apparatus making the loudest noise will be the bears of the occasion.

For this affair the streets of the city will be decorated with thousands of flags, pennants, banners, etc., and everything will be done to make those who attend have the time of their lives. Through the day and evening a prominent band will dispense music, and the funny Karnival Komics will be seen on every hand. The Kalem Picture company will be present and take a number of pictures.

There is one feature that those in charge of this affair wish to impress on the residents of Tropico and visitors alike, and that is that there will positively be no gambling or offensive devices allowed in the city to take the people's money without giving equal value in return. There will be plenty of places where those attending may eat, and at these places the refreshments will be served at reasonable prices. There will be free auto parking. The boosters of this affair are determined that all those attending will go home satisfied and will be compelled to say that they were treated "right."

So the invitation to attend this affair is open to all of Southern California. The rough-house element is not wanted, and if it does come its practices will not be tolerated. Tropico her celebrate the completion of the largest set of improvements that has ever taken place in that city at one time. We might say that there will be excursion rates on all roads to Tropico on the 31st.

So, friends and neighbors, the latchstring of the gates of the home of the "Tropico Beautiful" will be hanging on the outside October 31st, so that all who will may enter.

Telegraphy Stenography Bookkeeping

School founded by the Southern Pacific Railroad Company in 1907. S. P. Main Line Wires in School.

Largest Telegraph School and Commercial College on the Pacific Coast. Students come to us from every State in the Union.

We will arrange for free board and room in private homes for girls who are willing to assist with the work after school hours.

We teach the popular Gregg Shorthand and also Stidger, the famous short method. Students take dictation in ten days. Any child can learn Stidger Shorthand.

We want fifty men to prepare for service with the S. P. R. R. Co. Positions guaranteed.

PARENTS: Give your son or daughter a business education. It is their BIRTHRIGHT.
